## ABOUT ME

I am a user-focused Web Developer with more than ten years of experience as a strategic writer and marketing-communicator. These experiences, combined with a certificate from the Full Stack Coding Bootcamp at University of Denver, an MBA degree and undergraduate degree in Journalism, have allowed me to appreciate a variety of innovative, challenging environments where I thrive as a professional.

## EDUCATION

### FULL STACK WEB DEVELOPMENT BOOTCAMP

University of Denver 8/2018 – 3/2019

- Web Development course that provided me with the skills necessary to build real world web applications.

### MASTER'S OF BUSINESS ADMINISTRATION

University of Colorado at Denver  
2011 – 2013

### BACHELOR OF SCIENCE IN JOURNALISM

Ohio University  
2004 – 2008

## APPLICATIONS BUILT

### BAMAZON

12/2018 - [github.com/meghansmorris/bamazonStorefront](https://github.com/meghansmorris/bamazonStorefront)

- Developed a command line application utilizing MySQL and Inquirer npm package. It provides two viewpoints for the user – a customer view to purchase items and a manager view to manage inventory.

### CONSCIOUS CUISINE

11/2018 - [meghansmorris.github.io/ConsciousCuisine](https://meghansmorris.github.io/ConsciousCuisine)

- Built a responsive application with three other developers using two APIs to retrieve recipe information and supply corresponding nutrition information for each recipe result.
- Awarded "Best Use of Tech" by fellow Bootcamp students.

### CRYSTAL COLLECTOR GAME

10/2018 - [meghansmorris.github.io/CrystalCollector](https://meghansmorris.github.io/CrystalCollector)

- Created my first game application using jQuery, JavaScript, CSS and HTML. It uses functions to set values for the game components, keeps track of scores and auto-resets.

## TECHNICAL SKILLS
